

24 HOURS OF LIVE RESEARCH!

At HSB Living Lab, research is conducted all hours of the day. In April we're opening the digital doors to the lab for a full 24 hours. During HSB Living Lab 24H, we invite everyone who wants to dive deeper into our projects, to discuss the progress of research and how it can be applied into our everyday lives.

A digital broadcast from the lab in Johanneberg will bring you seminars, panel discussions and interactive screenings, offering you interesting insights from selected projects – for a whole day and a whole night.

DATE: 15-16 april 2021

TIME: 10.00 AM

WHERE: HSB Living Lab on Youtube

Subscribe to our newsletter here or scan the QR code to get ongoing information.

Welcome to participate in a 24-hour digital science festival packed with exciting seminars that will keep you awake well into the morning hours.

SEE YOU!
