

THE EUROPEAN NETWORK OF LIVING LABS

European
Network of
Living Labs

SCAN ME

The European Network of Living Labs (ENoLL) is the international, non-profit, independent association of benchmarked Living Labs.

Living Labs are real-life test and experimentation environments that foster co-creation and open innovation among the main actors of the **Quadruple Helix Model**, namely:

- Citizens
- Government
- Industry
- Academia

ENoLL facilitates knowledge exchange, joint actions and project partnerships between its **historically labelled +480 members** in Europe and worldwide.

Our aim is to promote the Living Labs concept in order to **influence EU policies, enhance Living Labs and enable their implementation at a global level.**

Stop by our booth to see how citizens are directly involved in the following missions:

- 100 Climate-Neutral Cities by 2030 - by and for the citizens
- Caring for Soil is Caring for Life
- Climate Resilient Europe
- Conquering Cancer: Mission Possible

Our Living Labs presented at the booth:
